

# Sushanta Kumar Pradhan

Full-Stack Web Developer | +91-7608099427 | [pradhansushantakumar5@gmail.com](mailto:pradhansushantakumar5@gmail.com) | [LinkedIn](#) | [GitHub](#)

## Professional Summary

Recent MCA graduate with a strong foundation in full-stack web development, including MERN Stack. Skilled in building responsive web applications and dynamic projects such as chatbots, admin dashboards, and CRUD-based systems through hands-on academic work. Eager to begin a career in web development or software engineering and contribute to a tech-driven organization by bringing my passion for clean code and continuous learning.

## Technical Skills

- **Frontend:** HTML5, CSS3, SCSS (Sass), React.js, Tailwind CSS, Vite, Three.js, GSAP
- **Backend:** Node.js, Express.js
- **Programming Language:** JavaScript (ES6+)
- **Database Management:** MongoDB
- **Tools & Platforms:** GitHub, Visual Studio Code, OpenAI API, ChatGPT, GitHub Copilot
- **Deployment & CI/CD:** Vercel, Render, GitHub Actions (Basic)
- **Core Concepts:** REST API, JWT Authentication, CRUD Operations

## Education

### **Master of Computer Application (MCA) | 2023 – 2025**

Trident Academy of Creative Technology, [CGPA: 9.01/10](#)

### **Bachelor of Science (B.Sc.)**

Upendra Nath College, [CGPA: 8.20/10](#)

### **CHSE- Higher Secondary (Class 12)**

Upendra Nath College, Percentage: [70.5/100](#)

### **BSE- Secondary Education (Class 10)**

Maharudrapur High School, Percentage: [88.83/100](#)

## Academic Projects Experience

### **Muse-Book – Online Chatbot-Based Ticketing System for Museums**

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, REST API, Razorpay
- **Deployment:** Vercel (Frontend), Render (Backend)
- Developed a MERN-based ticketing platform with a chatbot for booking, availability checks, integrated with an admin dashboard.
- Implemented JWT-based authentication, Razorpay payment gateway, real-time booking, filter features, and a fully responsive UI.

Live Demos: [Muse-Book](#)

## Personal Projects Experience

### **Employee Management System**

- **Technologies Used:** React.js, JavaScript, HTML5, Tailwind CSS.
- Developed a responsive CRUD-based UI with search, filter and form validation using modular components.

GitHub Repository: [Employee Management System](#)

### **MERN Stack Todo List (CRUD App)**

- **Technologies Used:** React.js, Express.js, MongoDB (Mongoose), Tailwind CSS, Vite.
- Created a full-stack JWT-authenticated Todo app with real-time CRUD and responsive UI using Tailwind.

GitHub Repository: [CRUD App](#)

### **AI-Powered Code Review Tool**

- **Technologies Used:** React.js, Vite, Node.js, Express.js, Axios, OpenAI API
- Built an AI-based code review app with dynamic UI, modular backend, and OpenAI-powered feedback.
